ACCOUNTS A CO. The subprimo Fortes, to the celebrated instruments of HALLET,
DAVIS & Co. The improvements made of late by this
bouse, are very great. We now offer their new Panos,
with a new action, which, for delicacy of touch and power,
has not its equal—a Patent Suspension Bridge, which produces the most beautiful tone imaginable. With this bridge
the strings never break, and as all our pianos are made with
the fall iron frame, those using them can feel assured thay
have an instrument that will stand in tune, at concert pitch,
and that will not be always out of playing order, by the
strings breaking. The following is from the Evening Mirror:

attings breaking. The following is from the Evening Mirror:

"We wish to call the attention of our residers to a most beautiful 7-cetave Æolian Piano Forte, now at the ware-rooms of Lincoln & Thompson, No. 411 Breadway. This instrument is the mate to the one in the public parior in the Metropolitan Hotel, furnished by Lincoln & Thompson, and made by the well-known house of Hallet, Davis & Co., Boston. The improvements made of late by this firm are very great, and consists in an entirely new ection of great power and delicacy of touch, much superior to anything we have ever seen—with a suspension bridge (entirely new, and used by no other manufacturers) which can produce the most liquid tone we have ever heard. We would advise every paints of this city to call and examine this, (we think) the best piano to be found in New-York."

For sale, as above, a fine assortment of Mew-York Pianos, both new and second has d. Aleo, the celebrated Pianos of A. W. LADD & Co. Boston. We have the sole agoncy of the above well-known instruments for the city and vicinity. Our instruments are all warranted to give the purchaser entires at faction, and are sold at extremely low prices. LINCOLN & THOMPSON, No. 441 Broadway, between Howard and Grand-ste.

& H. BARMORE offer at their manu factory and wareroom, No. 348 Bleecker-st. corner tles, an ascortment of elegant Plano-Fortes, with the ic frame and reverse bridge, and all other modern im-nests.

UNPARALLELED PERFORMANCE of STAVE MACHINERY.—60 to 100 Staves a minute, cut, dressed and jointed in the most perfect manner by machinery.—The subscribers, manufacturers of Fatent Stave Machinery for shek and tight work, offer to the public a new Stave Cutter and Jointer combined, for slack work, that we warrant to perform, all that we claim for it, and with confidence challenge competition with any other machine in the rapidity of operation, superior quality and finish of the work. This machine, when supplied with a bolt of wood, will feed itself, cutting, dressing and jointing in a perfect and uniform manner, without any rehanding, 50 to 100 staves a minute, and more completely finished than staves dressed by any other machine in use. It is the only machine in use that ever jointed a stave perfectly at the same operation of cutting and dressing, and any kind of timber that is fit for a stave may be used, even such as could not be rived into staves and worked by hand, such as elim, maple, sycamore, lackberry, wainut, &c. By this machinery, coopers, flouring mills, lime, salt and coment manufacturers may furnish themselves with a perfectly dressed and jointed stave, ready to set up into barrels, at about one-half the price usually paid for rough staves, and barrels made of staves cut by this machine will commend themselves for their strength, uniformity and smoothness. The cost of running the machine, when kept steadily at work, need not exceed, if it equals, 50c. (fifty cents) per thousand staves, including removing and piling up. We also furnish an unrivaled Stave Dresser, for tight work, called the "Judan Machine."

Our shops can be reached in from four to five hours by railroad, from Cincinnati, Columbus or Sandusky, Ohio,

CHERRY PECTORAL, for the rapid cure of Coughs, Colds, Influenza, Hourseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in savanced stages of the disease.—Of all the numerous medicines extant, (and some of them valuable, for the cure of pulmonary complaints, nothing has ever been found which could compare in its effects with this preparation. Others cure comertines, but at all times and in all diseases of the lungs and throst where medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in accordance with the directions. We do not advertise for the information of those who have tried it but those who have not. Families that have known its value will not be without it, and by its timely use, they are secure from the dangerous consequences of Coughs and Colds which neglected, ripen into fatal consumption.

The Diptoms of the Massachusetts institute was awarded to this preparation by the Board of Judges in September, 1847; also, the Medals of the three great Institutes of Art in this country; also, the Diptoms of the Ohio Lustitute at Cincinnati, has been given to the CHERRY PECTORIAL, by their Government, in consideration of its extraordinary excellence and usefulness in curing affections of the Lungs and Throat.

Drar Sir: Feeling that I have been spared from a premature grave, through your instrumentality by the providence of God, I will take the liberty to express to you my gratitude.

A cough and the alarming symptoms of consumption had reduced me too low to leave me anything like hope, when my physician brought me a bottle of your Fectoral. It seemed to afford immediate relief, and now in a few weeks time has restored me to sound health. If it will do for others what it has done for me, you are certainly one of the benefactors of mankind.

Sincerely wishing you every blessing.

INVIGORATING CORDIAL.—Professor
MORSE'S INVIGORATINO KLIXIR or CORDIAL—
THE EIGHTH WONDER of the BOTANIC WORLD—
The invigorating Eliuir and Cordial introduced into medical
practice by the great chemist, physician and traveler. Dr. M.
Morse, has for its basis an oriental borb, first brought from the
story deserts of Arabia Petrus by that eminent philosopher.
The natives of that region are remarkable for their longevity,
extemption from sickness and power of sustaining fatigue, all
of which they attribute in a great degree to the use of the
herb or plant referred to, which they universally chew, and
sometimes smoke. On his return to Europe, after a long
residence in the East, Professor Morse commenced experimenting with this wonderful natural production, and the result of hie labors is the Invigorating Elixir, which has been
indoned by the Medhcal Colleges of all the great cities of
Europe as the hest preparation extant for life.

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the inumediate and almost miraculous change which it occasions in the
diseased, de bilitated and shattered nervous system. Whether
broken down by excess, weak by nature, or impaired by
sickness, the unstrung and relaxed organization is at once
re-braced, re-vivilied, and built up. The mental and physical
symptoms of nervous disease vanish together under its
influence. The stooping, trembling victim of depression
and debility, becomes a new man. He stands erect, he
moves with a firm step; his mind, which was previously
sunk in gloom, of an almost idiotic apathy, becomes bright,
buoyant and serive; and he goes forth refreshed, regenersted, and conactous of new, vigor, to his accustomed occupations. Nor is the effect temporary. On the contrary, the
relief is permanent, for the cordial properties of the medidictine reach the constitution itself and restore it to its normal condition. Well may the properties of the medidictine reach the constitution itself and restore it to its normal condition.

nineteenth century. It is, as the first scientific old world have admitted, that miracle of med ore supposed to have no existence. A STIMULANT THAT ENTAILS NO REACTION.

Its force is never expended, as is the case with opium, sicoholic preparations, and all other excitants. The effect
of these is brief, and it may well be said of him who takes
them, "the last state of that man is worse than the first."

But the Elixer is an exhibitant without a single drawhard and in its constitution and the hard with hard.

prolonguing A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative in all complaints incident to females mark a new sea in the annels of medicine. Thousands of stimulants have been invented—thousands of invigorants concocted—all purporting to be specified in the various diseases and derangements to which the delicate conformation of woman render her hisble. The result has heretofore been uniform. These nostrums have indeed imparted a nomentary vivacity to the nervons system, a transient and delusive vicor to the muscles; but this flash of redef has been succeeded by a degression and prostration greater than before, and the end has too often been utterly to paralyze the recipier strive power of the nerves and the vital organization, and finally to destroy the unhappy patient. NO INVENTION of the present century exceeds in stality the far famed ITALIAN MEDICATED SOAP, of Dr. GOURAUD. Its properties for removing TAN FRECKLES, SUN BURN, DISCOLORATIONS, RINGWORM. SALT-RREUM. BARBER'S ITCH, CHAPS, CHAFES, and every species of cutaneous craptions, border on the mirroculous. Not the least among the recommendations of this inestimable Soap is its flotability; it can be used in hard, or even sait water—thus rendering it available at sea, where, of course, the luxury of limpid Croton is out of the question. Hundreds of our havailoffield and shipmasters bear witness to its exalined merits.

Dr. GOURAUD'S FOUDER SUBTILE eradicates superfluous heir from any part of the body. Nothing leoks so well on a man as a commanding foreshead, and in many individuals this cannot be obtained except by the use of Gourand's Poudres Subtile.

Dr. G'is instantaneous LIQUID HAIR DYE is another article of primary importance, inasmuch as it will instantly change red, grey, or white tair to a beautiful however of black. The demand for GOURAUD'S LIQUID VEGE.

To Dr. Friix Gouraup—Dear Sir: Whatever value may belong to the evidence of one who never in his life gave testimony to a secret medical Remedy of any kind, I am descrict the action of the secret medical Remedy of any kind, I am descricts that you should possess it in favor of your most admirable "INSTANTANEOUS LIQUID HAIR DYE." When my Grey Hairs became a noticeable fact to my children, I thought it was time to seek some means of hiding these tell-tales from the family eye. I have seen so many ludicious effects produced by various Hair Dyes among my friends, giving all the prismastic colors of the rainbow to one, blackening the skim of another, and making the hair of a third stand up in dry, unmoistened staffness, "like quille upon the freefful poronpitie," that I almost despaired, and should have given up the thought of "Dyeing," ind I not met a celebrated literary man, a friend of mine, who had used your preparation. He told me what a piesant practical experience has since taught me, that your Hair Dye was instantaneous in its effects, not requiring more than ten unitures for its operation, permanent in its beautifying results never leaving the slightest mark or stain upon the skin, and what it is still more remarkable, invigorating and vitalizing the hair, giving to it the youth and strength of adolescnee, as well as the glossy beauty and exuberance of early manhood.
